Description of the occurrence (continuation):

Note:

1. Any type of dangerous goods occurrence must be reported, irrespective of whether the dangerous goods are contained in cargo, mail passenger's baggage or crew baggage.
2. A dangerous goods accident is an occurrence associated with and related to the transport of dangerous goods which results in fatal or serious injury to a person or major property damage. For this purpose, a serious injury is an injury which is sustained by a person in an accident and which:
(a) requires hospitalization for more than 48 hours, commencing from the time the injury was received; (b) results in a fracture of any bones (except small fractures of fingers, toes, or nose); (c) involves lacerations which cause severe haemorrhage, nerve, muscle or tendon damage; (d) involves injury to any internal organ; (e) involves second or third degree burns; or any burns affecting more than 5% of the body surface; or (f) involves verified exposure to infectious substances or injurious radiation. A dangerous goods accident may also be an aircraft accident; in which case the normal procedure for dangerous goods accidents must be followed.
3. A dangerous goods incident is an occurrence, other than a dangerous goods accident, associated with and related to the transport of dangerous goods, not necessarily occurring on board an aircraft, which results in injury to a person, property damage, fire, breakage, spillage, leakage of fluid or radiation or other evidence that the integrity of the packaging has not been maintained. Any occurrence relating to the transport of dangerous goods which seriously jeopardizes the aircraft or its occupants is also deemed to constitute a dangerous goods incident.
4. Any occasion when undeclared or misdeclared dangerous goods are discovered in cargo/mail or when dangerous goods, not permitted, are discovered in passenger carry-on baggage, checked baggage or on one's person, must also be reported.
5. In the event of a dangerous goods incident or accident on board airBaltic aircraft, Pilot in Command must be immediately informed.
6. Preliminary information must be submitted as soon as possible, but not later than by the end of the duty time of the particular day when occurrence happened to groundops@airbaltic.com, unless exceptional circumstances prevent this.
7. A completed airBaltic Dangerous Goods Occurrence Report must be submitted within 12 hours from the time of occurrence to groundops@airbaltic.com and copies of all relevant documents (such as NOTOC, Airwaybill, LIR, Loadsheet) and any photographs must be attached to the report.
8. Providing it is safe to do so, all dangerous goods, packaging, documents etc. relating to the occurrence must be retained until after the initial report has been made.
