

UPDATE ON MEET AND ASSIST (MAAS) SERVICE

TO : ALL STATIONS
FROM : GROUND OPERATIONS

Dear Partners,

This is to inform you that effective **01.07.2025**, the MAAS (Meet and Assist) SSR code will be deactivated and no longer supported in our Departure Control System (DCS).

This decision has been made following an internal assessment which concluded that the MAAS SSR is not a regulated service and has caused inconsistencies in operational delivery across our network. To maintain process standardization and ensure clarity in ground operations, this SSR will be discontinued across all stations.

Key Points:

- Last applicable date: **30.06.2025**
- The MAAS SSR will no longer be selectable or available for entry in the DCS.
- No alternative SSR will be used for informal meet-and-assist services.
