

TO : ALL STATIONS  
FROM : GROUND OPERATIONS  
ISSUE DATE : 24.03.2025  
SUBJECT : WALK AROUND CHECK

Based on the frequency of detections at the arrival stations that may affect flight safety, such as covers and door/cover locks remaining open, and structural damage, we kindly request that all staff be informed about the "Walk Around Check" process being carried out and ensuring that the locks are fully engaged after the doors and covers are closed.

**Walk Around Check;**

- The external checks performed while the aircraft is in the parking position and the engines are off for all points that need to be checked, starting from the nose of the aircraft and including all wing tips and the tail end,
- Walk-Around check should be performed on an arrival and departure of the A/C

**Points to be checked;**
