Baggage Adding Process
For Checked-in Passengers

Prepared by: DCS Team

Baggage Adding Process For Checked-in Passengers

Between 20.11.2025–21.11.2025, from 23:00 to 03:00, changes will be made to the baggage-adding process for checked-in passengers with the DCS release:

- Current situation: When adding new baggage for a checked-in passenger, the passenger's name and surname are selected, and the baggage is added through the Add Bag Tag field on the Offload Header page.

- With the new DCS update: When the flight status is CI, this field will be disabled, and the baggage-adding process will be carried out through the **Check-in Update** button on the Check-in page or Offload Header page.

You can find detailed screen images on the next page..
