

Topic: LOT AIRLINES CHOCKS PROCEDURE

Dear All Ramp Agents;

As you know between 22-25 May Mrs. Anna from Lot Airways was here to help and train us. She noticed that Wisag loaders are moving the Chocks before all operations are done therefore, I publish this Read and Sign to remind you and attention you!

On every LOT airlines flights please be ensure that Chocks are not moved until the all Door Closed, Stairs are moved, Pushback connected and parking brakes are set!

This is a safety issue and in Audit LOT Auditors will pay attention to this subject!

Thank you for your understanding and cooperation!

Burak Kahraman
Manager Operations
