Memo #	OM-199
Title	Bag drop timing changes at selected airports
Date of Issue	11th June 2025
Written by	Kevin Doyle, GO Policy and Standards
Reviewed by	Ground Ops Customer

Reason for Issue

In order to help improve both operational performance and customer experience, the airports listed in the table below will have their bag drop opening and closing times amended. **This change will apply from 17th June 2025**. All other airports that are not listed below will remain as is.

Airport	Previous Bag Drop opening	New Bag Drop opening (minutes STD)	Previous Bag Drop closing	New Bag Drop closing (minutes STD)

PMI**	-120	-150	-40	-60
ZRH	-120	-150	-40	-50

**PMI timing changes will be updated on 23rd June.

Updates have been made to all customer touchpoints and web pages that reference bag drop opening and closing timings. The most notable of these will be the pre flight emails that customers receive and their boarding passes.

As customers can print/download their boarding passes up to 60 days before they are due to fly, we may will still see some customers arrive with the old bag drop closure times, if they haven't refreshed or reprinted their passes. If a customer presents with the old bag drop closure time, **it's important that they are accepted for bag drop and travel**. We anticipate these cases may be seen for upto 6 weeks

OPERATIONAL MEMO

from the changes being implemented, a subsequent Ops Memo will be published when we can move to a hard closure time.
