

MESSAGE OF THE MONTH — OCTOBER 2025

GO SAFE

AND PREVENT AIRCRAFT DAMAGE

AVOID AIRCRAFT DAMAGE BY:

- Ensuring equipment is fully serviceable before use
- Conducting pre-use inspections of all equipment
- Ensure that the stand is free from obstruction before aircraft arrival
- Performing a brake check before entering the ERA
- Driving at walking pace inside the ERA
- Using a guides person when positioning equipment or when visibility is restricted
- Positioning steps so that the platform is between 20–30 cm from the door sill
- Ensuring that the 'no touch' policy is followed
- Ensuring GPU, FEGP, and ACU 's are disconnected before moving equipment

REMEMBER:

- Only use equipment when trained to do so
- **NEVER** drive without a valid driving license and airside driving permit
