Reason for Issue:

To inform Ground Crew of the new EU Entry/Exit System (EES) coming online from 12th October. EES is an automated IT system for registering Third Country non-Visa nationals travelling for a short stay (no more than 90 days in any 180 day period), EES will replace the manual stamping of passports on entry and exit. There is no action for Ground Crew at this time.

Applicable Routes:

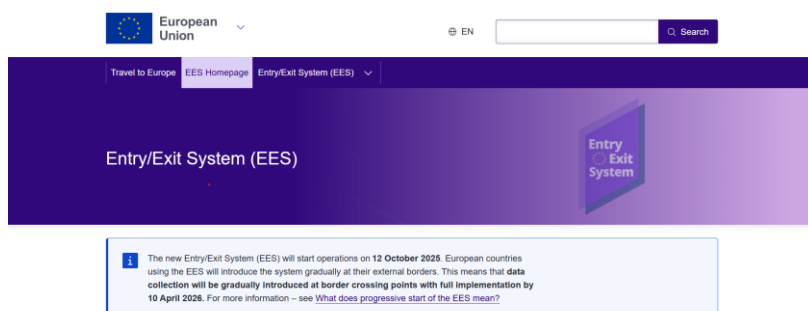

All airports who have agreed to participate in the EES scheme in the following countries (from external borders only not internal Schengen borders):-

Austria	France	Lithuania	Slovakia
Belgium	Germany	Luxembourg	Slovenia
Bulgaria	Greece	Malta	Spain
Croatia	Hungary	Netherlands	Sweden
Czech Republic	Iceland	Norway	Switzerland
Denmark	Italy	Poland	
Estonia	Latvia	Portugal	
Finland	Liechtenstein	Romania	

Details:

Third Country non-Visa nationals will be required to register on their first entry to the applicable countries, a new process which is likely to take additional time to complete for their first entry. The registration includes biometric data collection, fingerprints and photograph. This may take our customers longer to cross the border than expected. We have sent communication on this to customers via email and information is on our website. EES affects customers travelling on all sea, land and air carriers.

Full details can be found at the EES Homepage website, including:

- What is the EES?
- Data held by the EES
- Contact details for data protection matters
- How will the EES work? What is new during the border check?

The accountable staff member at each airport must confirm to their easyJet Manager that the SM has been received, understood and cascaded to applicable Ground Crew

As there will be differing levels of participation across the countries, it would be very helpful if you could provide any feedback on how this is being implemented at your airport. And, if this is having an impact on our customers in any way. You can do this by using the QR code below:
