Title	BOARDING STANDARDS FOR GROUND CREW
-------	------------------------------------

OPR #		Issue Date:	29/04/26	Effective Date:	30/04/26	Valid Until:	Ongoing
-------	--	-------------	----------	-----------------	----------	--------------	---------

Written By:	Customer Experience	Approved By:	Ground Operations
-------------	---------------------	--------------	-------------------

The contents of this document are highly confidential and must not be shared with anyone else, except strictly for the purposes of providing ground handling services to easyJet. Copyright and all other intellectual property rights in the material belong to easyJet Airline Company Limited.

Reason for Issue: Reissue and amendment to existing standards and to ensure consistency of service at the boarding gate

Prepare the Gate Area

- Ensure gate area is neat and tidy, only approved easyJet signage on display.
- Ensure Speedy Boarding / easyJet Plus lines are clearly identifiable to all customers.
- Ensure PDQ machines are kept out of sight of Customers when not in use.
- Ensure all digital boarding screens are accurate.

Welcoming Customers to the Gate

- As customers arrive engage positively with them and check they are in the correct queue, and their bags are compliant.
- Advise all Customers that they will place their small bag under the seat and if the bag is not compliant, refer to the Cabin Bag standards.
- Make an announcement to inform customers when boarding will begin and where the aircraft is if it has not arrived.
- If a PA system is not available approach customers to update them directly
- Use the Boarding Digital Screens that are available to inform passengers when boarding will start and what the boarding sequence will be.

Before opening boarding

- Make an announcement to inform customers about the boarding process and when the boarding will begin and how the customer will be boarding (Airbridge, Bus and/or walk on walk off) including expected wait time.

Gate Opens/Boarding Starts

- The first customer must be scanned no later than -45 (LGW -55) on first wave, or after the aircraft has arrived rest of day. (if there is a Crew Change, only start boarding once the crew has arrived at the gate)
- Board priority customers first then invite all other customers.
- Use 3+1 with all Customers. As part of the 3+1 inform customer which door to use for boarding as applicable.
- Announcements must be made if boarding wait is longer than 15 mins. If there is an extended boarding wait time, then keep customers informed every 10 minutes.
- If the flight is delayed for 1 hour+ please refer to the Disruption Standards.

On a turn:

- A320/321 customers are to be invited to the bottom of the aircraft stairs ready to board the aircraft at +8 mins (+7 mins for A319) from last customer leaving.
- If there is a delay to the LOFO times identify the reason and inform customers of the delay.

All Steps must be followed to provide: **A GREAT** experience for all customers,
creating the **WARMEST WELCOME ON THE GROUND.**

Boarding 3+1

Welcome each customer, Provide information, Give a warm farewell +Smile

Changes to Guidance Material: These standards are in support of GHM Procedure 1.1.7. Please refer to GHM for full guidance.
