

TUI Airline Ground Operations Instruction Notice

eLoadsheet – aircraft specific deadloads

Notice: GOIN24-048

Page 1 of 2

To: All Stations
From: Maarten Openlaar, Ground Ops Technology Specialist
Approved by: Jan Timmermans, Head of Network Operations
Nial Mclean, Head of Station Operations
Kay Bartels, Deputy Nominated Person Ground Operations TUI

Applicability: TUI Airways (TOM-BY) / TUI fly Belgium (JAF-TB) / TUI fly Netherlands (TFL-OR) / TUIfly Germany (TUI-X3)

Date of Publication: 23 OCT 2024

Validity Period: 23 OCT 2024 - ufn

Dear partner,

On **Thursday 24-10-2024 at 11:00CET** eLoadsheet will be updated to accommodate aircraft type specific deadloads. This update will ensure easier loading of deadloads and will remove the necessity to split deadloads to accommodate loading instructions.

This update only applies to aircraft set to 'loose loads' (narrow body aircraft) and will replace the standard sized deadloads of 35 bags.

From 24-10-2024 11:00CET onwards, eLoadsheet will create aircraft type specific deadloads to accommodate the loading instructions as specified in the applicable Ground Operations Manual.

So if the loading instruction requests for 35 bags (Hold 2), 15 bags (Hold 4) and the remainder of the bags (Hold 3), eLoadsheet will create deadloads in the following order:

1. 15 bags
2. 35 bags
3. 154 bags (volume limit set for Hold 3)
4. Rest deadload (if required)

Using the 'Standard loading' button each deadload will be loaded into the holds according to the loading instruction.

The picture below shows how a standard distribution of bags into Hold 2 and Hold 3 will change.

Loading ⓘ [Edit loads](#) [Adv. edit loads](#) ☐ Drag/drop ☒ Remove ☒ Swap ☒ Linked ☒ Pallet/Container ☒ Loose ☒ Special ☒ Large P/C ⓘ Info/edit ☒ Estimated Deadload
