

Topic: Group Boarding on TUI on PMI, ACE, FUE, LPA, TFN & TFS Flights

Dear All

Effective from 04.12.2025, in addition to the HBAG + Priority Boarding procedure, TUI is introducing group boarding on specific routes.

These are: PMI, ACE, FUE, LPA, TFN and TFS.

Please note, all boarding passes will display a boarding group, but it is applicable for the above-mentioned flights only.

The groups are:

Pre-board (PWDs)

Passengers with disabilities. These passengers won't have a specific group assigned, but should board first.

Group 1 (PREM JVIP SVIP – Premium / Deluxe / Fly Deluxe / VIP)

This group is only applicable for Long Haul flights, so you won't see them in Frankfurt.

Group 2 (HBAG)

Passengers with paid HBAG. These are the priority boarding customers.

Group 3 (INF / INFT)

Families with infants.

Group 4

All remaining customers.

Please note, this procedure is applicable for both bridge and bus boarding to ensure the priority boarding customers can board the aircraft first.

Before starting to board the passengers always check in GoNow how many passengers you have in the different groups. If a specific group does not have any passengers, then start the boarding directly with the first available group that has passengers.

For example: there are no passengers with disabilities on your flight. Then start the boarding with Group 2 directly. Because there are no PWDs, and Group 1 is not applicable for us.

How to find how many passengers you have in a specific boarding group?

Accessing the Passenger List by Boarding Group

1. Open **GoNow** → **Departures**.
2. Go to the **Manifest** tab.
3. Select **Search**.
4. In the **Boarding Zone** field, choose the zone number (e.g., Zone 1, Zone 2, Zone 3...).
5. Click **Search** again.

You will now see the **full list of passengers assigned to that specific boarding group**.

To ensure that the group boarding can go as smoothly as intended, TUI is introducing new boarding announcements, which need to be used on the PMI, ACE, FUE, LPA, TFN and TFS flights.

Please don't use the digital announcements on these specific flights! Only use the "Terminal Call" and the "Terminal Final Call". All other announcements manually as written below.

Welcome Announcement

Welcome to TUI flight X3 to

(If applicable please add - "which today is operated by XXXX")

We're almost ready to welcome you on board but before we do, we'd like to take a few moments to explain our boarding procedure. So, please relax, remain seated and thank-you for keeping clear of the gate area.

First, an important reminder that if you have any powerbanks, e-cigarettes or other loose lithium ion batteries in your checked-in luggage, please inform a member of staff immediately. These items must be carried in the cabin and not in the aircraft hold. A reminder that smoking and vaping is not permitted.

Your flight today will be boarded by boarding group number. Your boarding group number can be found on your boarding card. If you need any help finding your group number please just ask a member of our team who will be happy to help. Thank-you for waiting for your boarding group to be called, before coming forward to the gate area. Those customers requiring a little extra assistance today, will be boarded first.

On behalf of myself and the whole team in XXXX, Thank-you for choosing TUI and (we hope you) Enjoy your TUI Flight!
