Fuel Request

Fuel grade:	JET A1
Fuel volume requested (Litres):	4000 LT
Volume in alternative unit of measure :	-

This authorization is valid only for the operator shown within this document and for this Airport location only.

** To all concerned parties :- "All non-scheduled / adhoc flights will be approached for fuelling as close to the requested time as possible, however, fueller approach will at all times be subject to operational priorities imposed by scheduled operations at the airport"

During normal operating hours for the site refuelling will generally be available within an hour of processing an order subject to airport operational constraints. Orders outside normal operating hours for the location will generally be attended to within an hour of opening the next operating day, again subject to operational constraints on airport. Any out of standard airport operating hours fuel requests should be placed by telephone and may be subject to additional fees and overtime charges. Operating hours and telephone contact numbers for each location are available on www.airbp.com/wheretofind and RocketRoute Fuel (mp.rocketroute.com) website and app.

By accepting the supply of Fuel from this Fuel Release:

- 1) you agree that the Air BP Terms of Sale at www.airbp.com/terms ("Air BP Terms of Sale") apply to the sale of fuel to you;
- 2) you confirm and agree to be in full compliance with clause 13 (Anti Corruption and Trade Laws) of the Air BP Terms of Sale; and
- 3) you confirm that the fuel supply is not for an aircraft registered in, owned, or controlled by, or under charter or lease by Russia or a national of Russia or Belarus or a national of Belarus that is a) a US origin aircraft or b) has >25% of controlled US origin content.
