Topic: Carry-On Management On Wet-Lease airBaltic Flights

Dear Lead Agents,

During flight editing please check on airBaltic flights if the flight is operated by airBaltic or if it is a wet-lease flight.

If the flight is operated by an airline other than airBaltic, please write in Flight Comms, that the colleagues should collect handbags at the check-in & gate free of charge. But please highlight, that it is a wet-lease operation, and that is the reason.

E.g.: Dear All! Flight operated by Carpatair. Please take sufficient amount of handbags due to the limited capacity of the aircraft.

But only on wet-lease flights!

On normal airBaltic flights we are not allowed to handbags free of charge, so please on normal flights please don't write this in Flight Comms.

Thank you!

Norbert
