

## Topic: Leaving Open Doors In The Transit Area Unattended

Dear All

Kind reminder, we cannot leave any open doors under any circumstances unattended!

If you go down to speak with the crew or to bring the list, please make sure that one person stays at the gate, so the doors are not left open and unattended.

If you are alone at the gate, whenever you need to leave the gate (e.g. opening the door downstairs for the bus, bringing the list, etc.) please make sure that you close the door, and once you are back at the gate the door can be reopened.

But no door should be left open and unattended! This applies to all security doors on airside.

Thank you for your cooperation!

Norbert
