

This memo serves as a reminder of the current standard procedure when processing **paid SSRs** such as **BIKE, GOLF, SURF, Special Equipment** etc at the airport. The payment details table has been added at the end of the airport.

If SSR is Pre-Purchased:

- When the SSR has already been purchased in advance via sales channels, it will be reflected automatically in the system. No additional action is required by the agent other than standard bag acceptance.

If SSR is Requested at the Airport:

When a passenger **requests** one of these SSRs during check-in:

1. The SSR must first be **added via the PNR Management** page. (PNR Management page can be accessed by clicking on the relevant PNR from Reservation List or Checked-in&Boarded List).
2. After the SSR is added, the payment must be **collected accordingly**.
3. Once payment is confirmed, the **SSR tag must be created manually** on the **SeatMaster** page.

It is important to ensure that the tag for the SSR item is printed after the payment is processed to avoid discrepancies or untagged items.

Please ensure all team members involved in check-in and baggage processing are informed of and follow this flow carefully.

If there are any location-specific practices or constraints that prevent smooth handling, please escalate them to dcsgroup@flypgs.com so we can evaluate and support where needed.

	Short Code	Descriptions	Fees
Sport Equipment	GOLF	Golf	50 EUR
	SKI	Ski Set	50 EUR
