### Topic: Reminder Cargo Documents

Dear all,

just a reminder for you all. For Pegasus Airlines, it's a strict rule to always handover the Cargo documents which come with the Cargo to the Crew. Give them a short briefing and if we have NOTAC DGR/Cargo, make sure to hand over a signed copy for the captain and another for us. We always check the Cargo Manifest to see if it's DGR or not.

Tip from my side, if you spot the Cargo on POS already, double check and take the documents right away, then hand them over to the Crew. It makes things faster and easier for everyone, and just inform the loading team that you took the documents.

Thank you!

Regards,

Aquil
