Topic: Gate E8

Dear All

The non-Schengen gate E8 is unusable! Computer and scanners are missing.

When you open the check-in and add the gate number in DCS and you see that the gate E8 was assigned to your flight, please immediately call Gatevergabe (069 690 70306) and request a different gate.

None of our non-Schengen flights can be boarded on time with the document check, handbag management, etc. on time at this gate.

Please pay attention to this and call Gatevergabe in due time.

Thank you!

Norbert
