Topic: Pegasus Baggage Sizer

Dear All

Effective immediately, we can no longer use the current Pegasus sizers. The carry-on regulations have changed; they revised the dimensions from 55×40×20cm to **55×40×23cm**.

As of now, carry-on baggage controls shall be conducted only based on weight and piece allowance. No additional size checks with sizer are required for standard-size cabin baggage until further notice.

Thank you for your cooperation!

Norbert
