

# DHS NEWSPAPER

## WEEKLY 29

## STATION: FRA OPS

### **Pegasus Audit:**

Next week we will have a Pegasus Audit for multiple days.

Please make sure to wear work pants.

SmartGo must be used by the TRC, not Backoffice.

Security Search: For all Pegasus flights a security search must be completed. If you do not hold the training, another TRC/BO must complete the training for you. We will have new flight file pages where this must be signed.

Please don't forget to check for H5.

### **AZ A/C used for EJU flights:**

Please always check the MEL report of AZ and EasyJet in case AZ is operating the flight.

### **EasyJet Ground Handler:**

Starting from March 1<sup>st</sup>, Swissport will do the ramp for EasyJet. Please make sure to brief them before every ramp. Reread the jobcard again and familiarize yourself with the EasyJet procedures:

Door Permit, Fueling, Chocks, Bingo Sheets....

### **Flight Files:**

You must complete all your flight files asap.

In case you are missing a page, please inform backoffice and let them finish your file later. The flight files must be completed and cannot be just thrown away.

### **Oman Air Load Control:**

We finally got access to WY load control and do not need to do the load sheet via CLC. The job card will follow soon.

### **Black pants:**

No matter which airline you are working on, you must wear your work pants our currently, until the new pants arrive, black pants.
