Topic: TIM Check On Pegasus For Connecting Flights After Check-In Closure

Dear All

Now, after a system update, we are able to run the system's auto document check for the second leg as well even if our flight out of FRA is closed in DCS. On the next pages you may find a quick guide on how to with screenshots.

Effective immediately, please kindly set the flight on CC in DCS as soon as the Check-In is finished at the counter, and please don't reopen the flight! Once closed, it stays closed. This way we will allow our colleagues in the back office to issue the L/S on time.

If you need to work with a passenger's record, please always use the Checked-In PAX list.

Thank you!

Norbert

1. Open the Checked-in&Boarded List and select your passenger

Cabin Group Info			Baggage Info		Pax Manifest	
Number	Cabin	Passengers	Total Baggage Weight : 1892			
0	A	41	Total Baggage Count : 120			
1	B	39	Total Rush Weight : 0			
2	C	39	Total Rush Count : 0			
3	D	36	Total Crew Weight : 0			
			Total Crew Count : 0

Back

IMPORTANT: on the last mask NEVER click on "Back". There is a system bug – Pegasus IT is already working on it -, and if you click on "Back" on the last mask the DCS will offload the passenger completely.
