

Topic: Boarding via CAMEL

Dear team,

Please be advised that in the new pier, boarding must be conducted exclusively via CAMEL. The doors will open automatically once boarding or pre-boarding is activated in CAMEL.

If the doors do not open, this indicates that the bridge has not yet been released. This may occur if the “last passenger” button has not yet been pressed or if cleaning by FMS has not been completed (applicable for unclean arrivals only).

In such cases, a pink highlighted field will appear on the display (marked in yellow in the reference image).

Under no circumstances should boarding commence, and no crew members are to be allowed on board in this situation.

Please contact the traffic control center at 133 by phone for further assistance.

Failure to comply with these instructions may result in a terminal evacuation.
