

## Topic: Passenger Acceptance Rules for Entry into Türkiye

Dear Colleagues,

In order to prevent irregularities identified during passenger acceptance for entry into Türkiye, the following rules must be **strictly and consistently applied** at all station

### PASSPORT VALIDITY

- All passengers travelling to Türkiye must have a passport valid for **more than 61 days from the date of entry**.
- Passengers who do not meet this requirement **must not be accepted for travel**.

### TIMATIC CHECKS

- If the TIMATIC system returns a “**NO**” response:
  - The check-in process must not be completed by entering any description in the *Explanation* field.
- A negative TIMATIC result **must not be overridden**.
- In case of any doubt or uncertainty, **please consult [@PEGASUSVISA](#) before proceeding**.

### E-VISA VERIFICATION

When accepting passengers travelling with an e-Visa, the following checks are mandatory:

- All information shown on the e-Visa (**name, surname, passport number, date of birth**) must **exactly match** the details in the passenger’s passport.
- For **single-entry e-Visas**:
  - It must be verified whether the visa has been previously used by checking **entry stamps inside the passport**.
  - Passengers presenting a **single-entry visa that has already been used** must **not be accepted for travel**.
- The **visa validity start and end dates** must be carefully checked; visas outside their validity period are not acceptable.
- The **Supporting Document** section on the e-Visa must be reviewed in detail.
  - Additionally, it must be confirmed that the passenger **is physically carrying the supporting document** stated on the e-Visa.

Best regards,

## Domestic Connection Flights

- If passengers have domestic flights in Türkiye in their flight plans, relevant passengers must obtain a visa to enter Türkiye prior departure.
- For example, if a passenger wants to travel to **CGN** with the **AMM-ESB-SAW-CGN** route and there is a domestic flight between **ESB-SAW** on this route, the passenger must enter the country (pass through passport control) at ESB.
- As you can see in the example below, the flight numbers for **ESB-SAW** and **SAW-CGN** are different. In this case, the passenger must meet the entry requirements for Türkiye. (This applies to all tickets that include a domestic segment.)

## General Rules

- Upon the request of the General Directorate of Migration Management of the Republic of Türkiye, we are launching the IAPI (Interactive Advance Passenger Information) project for the Republic of Türkiye. This implementation will be carried out in phases.
- The IAPI query will be performed automatically during check-in. **If the Türkiye IAPI system does not allow the check-in, it is mandatory to consult the Travel Documents Team before proceeding.**
- The query will be processed automatically by the system. **In case of a negative response, please identify the passenger who was rejected and contact the Travel Documents Team for further action.**
- Below are the codes and corresponding responses you may encounter during the Türkiye IAPI process.

## Dual IAPI/APP or IAPI/IAPI Checks

- If both IAPI/APP or IAPI/IAPI processes are applicable for a given flight, our DCS system will handle them automatically. In case of a negative response from any of the queries, the check-in process will not be completed.
- In the example below; the passenger will travel to the United Kingdom via Türkiye as a transfer point. Since both Türkiye and the UK have IAPI checks, **the system shows each country's check separately.**
