

Topic: TUI MVT AND LDM

Hello all,

Currently TUI is using more and more charter flights for their Flights. In these cases, we are not able to create the LDS in eloadsheets nor to send the LDM and MVT.

Usually, the PIC is doing the loadsheet but we still need to send the LDM and MVT.

Please send the LDM and MVT manually through ARINC.

You can find the needed SITA addresses in eloadsheets.

Go to flight messages, select the destination, and select a longer time period to find a flight in the past, operated on a TUI A/C. Copy and paste the needed addresses into ARINC.

Flight Messages

Flight number, depart station, and destination station are optional, but date range must be entered.

Flight # Dep. station Dest. station
01.05.2024 From 19.05.2024 To Get report

Flight #	Dep.	Dest. station	Date/Dep.time	Message	Edition Number	Recipients	Delivery Date	Message Error	User
