Topic: About Travel Documents Announcement Section

Dear Partners,

As Pegasus Airlines, the rules that make the most mistakes regarding the entry rules of the countries we travel to and that are announced by us have been added as "**Travel Documents Announcement**" in our DCS system.

In the admission of our guests to the flight, the TIMATIC query should be used first and then the **Travel Documents Announcement** section should be checked.

In cases where you are not sure about international travel documents rules, you can reach "PEGASUSVISA@flypgs.com" via e-mail or WhatsApp support line.

We request you to pay due attention to the matter.
