### **Topic: LFI Refugee Passport to Saudi Arabia**

Dear Team!

We had the last INAD with a Refugee passport which were accepted by an agent with a tourist visa and wrong nationality.

I do remind you everyone to please be aware for these cases. Saudi Arabia is a complicated country. If you are not sure, always ask us or you have also the Pegasus visa team. They always try to help us.

Simple rule: Refugee Passport must have an UMRAH E-Visa or a proper visa in the passport. We can't accept them with an E-Visa for tourist. German Refugee Passport, always check in the visa the nationality, if there is written as nationality GERMANY then it is automatically invalid. Small things but these are the points which are really important.

Please also check in our R&S group the PDF of Saudi Arabia, there is everything written.

If you have any questions regarding Saudi Arabia, feel free to ask!

Regards,

Aquil.
