### Topic: I-Coupon & Pegasus Airlines

Dear All

Effective immediately, Pegasus Airlines is using the service provided by I-Coupon. It means, we no longer use our manual LRV (light refreshment voucher), but Pegasus Airlines is going to decide about the amount, and they will activate it on the passengers' boarding passes – and the passenger can use their boarding pass to pay.

It is going to work the same way, as it works on airBaltic. 😊

Best regards,

Norbert
