## Topic: Implementing iCoupon Vouchers for Pegasus

Dear team,

as we had in the past many delays and needed to provide a heavy amount of vouchers to the passengers. I was always trying to find another and easier solution and pushed Pegasus to find a new option.

Finally, from the next delay if we need to provide any vouchers to the passengers, we will start with the iCoupon System. That means Pegasus will activate the vouchers from there system automatically on the boarding passes of all passengers. The passengers will go to the shops which are mentioned below and pay with their boarding passes directly.

They will update the shops, because it's not up to date.

Here is also the link.

<https://www.icouponworldwide.com/airport/HAM>

If you have any questions, please let me know!

Thanks.

Regards,

Aquil.
