Topic: Wheelchairs on board WCMP

Dear Partners,

As of the 18th of September, airBaltic passengers may bring their own foldable manual wheelchair on board. This new policy aims to provide greater mobility and convenience for the passengers requiring assistance.

The key details:

Type: Wheelchair shall be manually powered and foldable

Dimensions: Wheelchair shall not exceed 80x40x20 cm (height x width x depth) when folded

Storage: Wheelchair shall be stored in the overhead locker during the flight

Passenger Responsibility: Passengers shall instruct the cabin crew, how to fold and unfold the wheelchair and must be able to transfer themselves into the wheelchair without assistance

DCS: Approved wheelchair will be reflected in DCS with SSR WCOB

If you have any question regarding this new rule, please let me know!

Thanks!

Aquil
