# Topic: Document Verification and Precautionary Measures for Flights to Bosnia and Herzegovina

Dear Partners,

Due to the recent increase in asylum cases among passengers traveling to Bosnia and Herzegovina, it has become necessary to implement the following procedures. Special attention should be paid before accepting passengers from third-world countries such as Pakistan, Egypt, Iraq, and Syria on flights to Bosnia and Herzegovina (SJJ-TZL). The key points to consider are as follows:

- 1. Travel Document Verification:** All travel documents of passengers from these countries must be submitted to us before the flight.
- 2. Approval from Bosnia and Herzegovina Border Authorities:** The submitted documents must be checked and confirmed by the Bosnia and Herzegovina border authorities before passengers are allowed to board the flight.

The thorough implementation of these procedures is crucial to prevent potential asylum cases.

We kindly ask for your attention on this matter and thank you in advance for your cooperation.

Saygılarımla | Kind Regards,
