Topic: Reminder Payments 2 PNRs

Good Evening,

This is a small reminder to ensure that when adding a PNR either by clicking the T button or manually in the Pegasus system, you verify the KG allowance on the added PNR. In cases of separate bookings, the first flight may have a 20KG allowance, while the added PNR could have 0KG.

If you are processing a payment, please ensure that:

- The payment is collected collected for both PNRs.
- The excess baggage is registered on both PNRs.

Example:

- HAM-SAW – One payment
- SAW-BGW – Second payment

One more thing, different PNRs and different passenger names must drop their baggage separately and can't be pooled. You can always check them in together, no problem but baggage, no.

Please make sure to double-check all details.

Thank you ☺

Regards,

Aquil
