## Topic: Safety Culture Inspections FRA

Dear All

In the last weeks Safety Culture was introduced to you by Jonathan and me. Effective immediately, we are starting to do inspections – all of us.  
Our target is 9 inspections per week. So, if all of us do 1-2 inspections per week, we will easily reach the target.

The application is installed on the supervisor phone:

On the home page you will always see, which inspections are still due. You will see it under Agenda. Just click on that and you can start performing an inspection.

Please remember that the different airlines are on different pages. So you will need to jump between the airlines.

Thank you!

Norbert
