TOPIC: WEAP procedures to destinations in Sweden

Dear Team,

Please follow the WEAP procedures of SAS, it is really important to do it correctly.

Important information regarding Sweden: Please note that Passengers traveling with sporting Weapons and Live Animals to Sweden and onwards within Sweden, must always declare it with customs at the first point of arrival in Sweden, even though other baggage (e.g., bags, skis etc.) is cleared at the final destination. Only tag the baggage including Firearm parts to ARN.

The check-in staff must inform passengers regarding the custom rules.

Thank you guys for your cooperation
