Topic: Cupboard Key Left In The Cupboard

Dear All

It has been noticed on several occasions that the cupboard keys to the check-in cupboards are often left in the lock of the cupboard.

Please don't leave it there! Once you have the material you need, please lock the cupboard and have the key with you.

Anybody passing by the counters behind you could take any sensitive airline material from the cupboards without any of us noticing.

Thank you for your cooperation!

Norbert
