## Topic: 31D On easyJet Flights Operated By ITA Airways

Dear Supervisors,  
Dear Lead Agents,

Some easyJet flights are going to be operated by an ITA Airways A320. This aircraft is going to be a special one, because it has only 174 seats – instead of 180 or 186 what easyJet normally has on their A320.

But more importantly, seat 31D must always be hard blocked on all ITA aircraft. This seat is going to be used by the crew.

Even if the flight is overbooked, seat 31D must not be released and allocated to any passenger.

Please kindly add this to the Flight Editing checklist under easyJet.

Thank you!

Norbert
