Topic: LFI Arabic Residence Cards

Dear Team,

When handling passengers with foreign passports and residence cards for Arabian countries, please proceed with particular care. For example, a Tunisian passport combined with a Qatari residence permit valid until 2027 does not automatically mean the passenger is ok to travel.

It is a must to verify whether the passenger has been outside the residence country for more than 180 days. Please check the passport stamps carefully. If you are unsure, do not hesitate to contact your team leader or the Visa Team for support. These may seem like small details, but they can result in costly consequences if overlooked.

Remember one thing, always feel free to ask us! 😊

Thank you for your attention.

Regards,

Aquil
