Topic: LFI Staff from different Company

Dear all,

bringing a family member to the airport / gate **DURING** the shift is ok, but until to the gate maximum, yesterday a Staff from another company brought the grandparents and asked the gate agents if she can bring them down. But without any information she brought them until to the seats in the aircraft, it's not allowed.

Even we are not allowed to come on our off day to the airport and use our ID to pass the security.

Please make sure for the future, even if a STAFF from the airport has an ID only until the gate.

Thank you!

Regards,

Aquil
