ELECTRICAL/TOWING SERVICE PANEL A220-300

Recently errors related to electrical/towing service panel on A220 aircrafts has considerably increased. During regular Turnaround, there is **NO NEED TO PUSH ANY BUTTON OR ACTIVATE ANY SWITCH.**

Always ask PIC permission to disconnect ground power, indicators have only informative meaning

NOSE WHEEL STEERING IS DEACTIVATED FROM FLIGHT DECK, NOT FROM OUTSIDE OF AN AIRCRAFT

Human error: APU shut off switch has been unguarded and selected OFF, because considered to deactivate nose wheel steering system.

Auxiliary Power Unit shut off switch. Must be used **ONLY** in case of **EMERGENCY** to shut off APU.
