Dear Ground Service Providers,

Due to safety considerations, we are introducing an early automatic notification system regarding aircraft restrictions (*example: beacon light inop*).

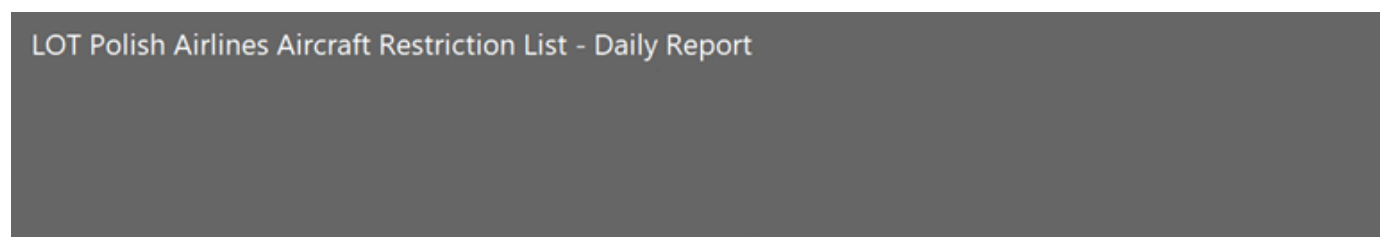

You will be notified prior to aircraft arrival to prepare for special handling if necessary.

There will be two types of notifications:

1. AIRCRAFT RESTRICTIONS REPORT sent daily via e-mail to all Handling Providers at **22:10 UTC**

- Report is sent to all airports where LO aircraft is planned within the next 48 hours
- Report contains information about specific aircraft malfunctions

Example of the report:

DATE OF REPORT: 11NOV2023 22:10 UTC

AIRCRAFT REGISTRATION	DESCRIPTION	STATUS
SP-LSF	LOWER OR UPPER RED BEACON INOP	ACTIVE
SP-LVB	APU INOP AFTER AA PLS GPU AND AIR STARTER	ACTIVE

In case you are not able to handle the specified aircraft planned at your station - Contact LOT OCC (+48 22 606 6612; ops.dm@lot.pl) or the appropriate station manager or ONN (+48 22 606 6301/6302; onn@lot.pl) immediately.

	<p style="text-align: center;">MEMO</p> <p>Subject: Aircraft malfunctions (MEL) automatic reporting system</p>	<p>REG No: 19/ONPS/2023</p> <p>Rev: 1.0</p> <p>EFFECTIVE DATE: 21.12.2023</p>
---	--	---

- 2. UPDATE REPORT** sent via e-mail to all Handling Providers if any changes in the status of aircraft restrictions, whether they have been fixed or if new issues have arisen in the meantime.

Example of the report:

LOT Polish Airlines Aircraft Restriction List - Daily Report Update

DATE OF REPORT: 11NOV2023 14:40 UTC

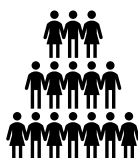

AIRCRAFT REGISTRATION	DESCRIPTION	STATUS
SP-LSF	LOWER OR UPPER RED BEACON INOP	ACTIVE
SP-LVB	APU INOP AFTER AA PLS GPU AND AIR STARTER	RESOLVED 2023-09-15 15:30 UTC
SP-LVE	APU GEN INOP. AFTER AA PLS GPU. NO AIRSTARTER NEEDED	NEW 2023-09-26 15:57 UTC

In case you are not able to handle the specified aircraft planned at your station - Contact LOT OCC (+48 22 606 6612; ops.dm@lot.pl) or the appropriate station manager or ONN (+48 22 606 6301/6302; onn@lot.pl) immediately.

Reports will be sent to OPS and RAMP e-mail addresses.

Please contact your LOT Station Manager or LOT Regional Station Manager if you want to update/change the e-mail address we use to send reports.

Handling agent must read the reports and verify if the aircraft with the malfunction is planned for their station.

All employees who will be involved in handling that aircraft must be informed of the malfunction BEFORE they start handling activities.
