

## Topic: SSR Baggage

Dear Partners,

Due to the double addition error occurring when adding SSR Baggage on the Offload Header page, we request that the SSR Baggage addition process be performed only from the check-in page until a second announcement is made. Please do not add SSR Baggage from the part you see in the image.

## Offload Header

Barcode Name	1551 210	Baggage Count	0
Status	0	Baggage Weight	0
