

Topic: Registering The Amount Of Check-In Counters In AvBIS

Dear Supervisors,
Dear Lead Agents,

Please make sure you registered the amount of opened counters in AvBIS. This information is very important for the invoicing.

When you register:

- It should reflect the reality, the amount of counters which were actually opened
- If we do Common Check-In (like Pegasus), please register the counters separately. E.g. we open 12 counters: ESB-4, SAW-4 and AYT-4. Please don't register 12, because the system will multiple it.
