

Topic: About Domestic Transit in Turkiye

Dear Partners

We would like to remind you of a topic that has been made a mistake recently.

If passengers have domestic flights in Turkiye in their flight plans, relevant passengers must obtain a visa to enter Turkiye prior departure.

Passengers who have domestic connecting flights but do not meet the necessary conditions to enter Turkiye cannot enter the country and the airline will be fined because of the passengers.

For this reason, we kindly ask you to allow the passengers to be admitted to the flights after their flight routes are carefully checked.

Thanks in advance for your valuable cooperation.

Example... PAP is travelling HAM/SAW/ADA/IKA, means the PAP needs a visa for TURKEY, because he has 2 connecting flights in TURKEY.
