

## Topic: About Podgorica/Titograd - Montenegro flights

Dear Partners,

We would like to inform you about some points that you should pay attention to when accepting the guests of our Podgorica/Titograd - Montenegro flights, which we will start as of July 19th, 2023.

First of all, all passengers who will travel within this destination must be accepted to the flight with documents proving their travel purpose as in all our Balkan flights. It should definitely be checked that the passengers have return or onward tickets, and it should be documented that they present a residence where they will stay, according to their travel reasons.

Timatic requirement checks must be made strictly for the passengers due to the different visa regime applications, they must be accepted to our flights after the passport validity periods and visa requirements are fully checked.

We request you to show due care and sensitivity to the issue.
