

Topic: Checking procedure around bows

Effective: With immediate effect

Please note below updates regarding passenger handling procedures:

This is a notification to all stations. More info and instructions (if needed) will be posted to Airports page later.

Checking procedure around bows (hunting or sporting equipment) – bows are not considered as a weapon at Finnair flights and the WEA procedure **WILL NOT** be followed. Bags are checked in as a normal luggage. Our WEA procedure is used only for firearms. AY GOM text will be modified in next revision.

The Publish Updates function in Altea has been disconnected for Finnair. This was a company decision to reduce cost and unify our customer communication. We are hoping to get more notification possibilities to our Finnair APP in the future.
