

Topic: About Domestic Transfer Flights in Turkiye

Dear Partners,

We would like to remind you of a topic that has been made a mistake recently.

If passengers have domestic flights in Turkiye in their flight plans, relevant passengers must obtain a visa to enter Turkiye prior departure. **For example, if the passenger wants to travel to EBL with TLV-SAW-ESB-EBL route and if there is SAW-ESB flight on this route, the passenger has to enter the country on SAW as the SAW-ESB flight is a domestic flight.** As you can see in the example below, SAW-ESB / ESB-EBL flight numbers are different from each other, and in this case, the passenger must meet the entry requirements to Turkiye. (valid for all domestic stations in Turkiye)

Passengers who have domestic connecting flights but do not meet the necessary conditions to enter Turkiye cannot enter the country and the airline will be fined because of the passengers.

For this reason, we kindly ask you to allow the passengers to be admitted to the flights after their flight routes are carefully checked.

Thanks in advance for your valuable cooperation.
