

## Topic: Rush Bag Acceptance

Dear All

Rush bags are bags which were checked in by a passenger but for some reason it was not possible to load them on the same flight its owner flew on. This could have many reasons – they were delivered too late to the position, they got stuck/lost somewhere in BRS, etc.

To reunite the bag with its owner the handling agent of the respective airline is going to rush the bag on a new flight. This flight does not necessarily need to be the same airline, it is possible that you will see rush bags on your flight from other airlines – respective airline agreements to be adhered to.

**Kind reminder: rush bags can only be accepted – put on green – once TRC confirmed! These are unaccompanied bags and must be reconciled.**

Rush bags are initially sent out red to the position. **TRC must check them and contact with Gate Team in order to get them accepted in DCS/BRS!**

**Only those rush bags can be accepted and loaded on a flight which were successfully reconciled!**

Thank you!

Norbert
