

Topic: About New Cabin Baggage Rules

Dear Partners,

Starting from **14th of February**, on Wednesday, the new cabin baggage project pass will be made and the light package will be opened for sale.

Note 1: PDBG information may be missing on boarding passes for the first one week after release. Please do the checks from DCS.

Note 2: “NCBG” information can be written instead of “No cabin baggage” on boarding passes from offline stations.

We kindly request that all staff is informed and coordinated well until revision time.
