## Topic: Empty Hold Check on Pegasus

Dear TRCs,

As of today, we are appointed on Pegasus to perform the Empty Hold Check and document it. This hold check to be performed by yourselves once everything had been offloaded from the given hold, and before they start loading them again.

Initially the form was meant for our flight files, but since the captain may request a copy of it, please kindly bring 2 copies with yourselves to the position. PIC needs to be informed that the empty hold check was performed.

Dear Back Office,

Forms are uploaded in AvBIS. Please note, Pegasus Handling Page had been amended accordingly as well, the new one is V02.
