

## **Topic: ITA Airways DGR Signs**

Dear all,

DGR signs should be present at all check-in and gate counters. ITA Airways uses their own custom DGR signs. These should always be visible to passengers at the check-in and boarding gates. There are three signs available for the check-in and two more laminated ones for the gate in the ITA folder.

Please be sure that these signs are always used. If you are unable to find them, please inform a shift lead or supervisor.

Best regards,  
Jonathan La Court
